

# Erection All Risks

A protective shield for your investment.

**Liberty Specialty Markets Latin America**

## When it comes to protecting engineering projects involving the construction and assembly of both civil works, machinery, and equipment, we have the right solution.

Each project and the goods to be installed are different. Be it manufacturing plants, public utilities, industrial complexes, or large-scale works, to name a few, they all require a specialized approach.

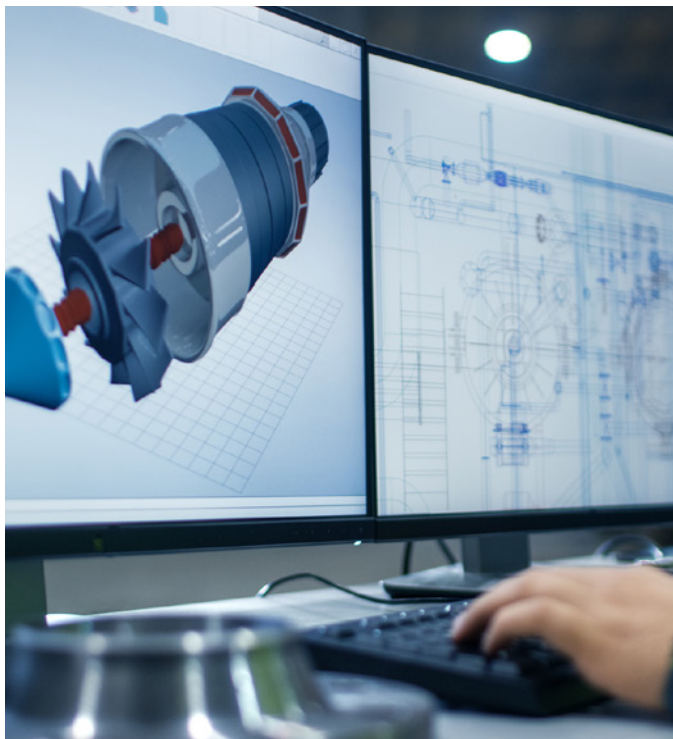

The right solution is the Erection All Risks coverage and **Liberty Specialty Markets Latin America** has it ready for you to implement.

### Product scope:

The purpose of the Erection All Risk product is to protect the insured against an economic loss resulting from an accident, sudden and unexpected physical damage affecting the project, civil infrastructure works and goods to be installed during the execution period, including the preliminary phase at the construction site. Such as the reception of materials and equipment to be subsequently incorporated into the works, excavations, land leveling, earthworks, temporary buildings, stream course deviations, and in general, any other part of the construction project.

### Product coverage extends to:

- All erection risk coverage.
- Earthquake, land tremors and volcanic eruptions.
- Natural disasters.
- Maintenance.
- General liability for property damage, and personal injury.
- Debris removal.
- Strikes and civil commotion, malicious damage, vandalism and terrorism.
- Construction equipment and machinery.

Liberty participates on a broad variety of projects and works in different segments of the economy, including industrial, commercial, service and governmental.

Some of our preferred activities include:

- Renewable energy.
- Metal processing.
- Water treatment.
- Paper manufacturing.
- Transmission lines.

## Product features and benefits:

Our solutions package is aimed at covering equipment assembly projects, including the construction of civil works.

More than coverage, we strive to offer a comprehensive plan, which includes: risk engineering services, design of a tailored protection program, identification of potential hazards, recovery plans and start up in the case of an unexpected event, and superior claim handling service.

### Liberty's differentiating coverage and services:

- All risk coverage, including maintenance and tests
- Advance Loss of Profit (ALOP).
- Extra expenses and costs for acceleration of work in case of delays.
- Political risk, plus acts resulting from war and sabotage.
- Damage to construction machinery and equipment.
- Civil liability.
- Coverage and endorsements tailored to the unique needs of each client.

## Your business in the right hands.

**Liberty Specialty Markets Latin America** has risk engineers, underwriters, and highly qualified professionals, who have not only had the opportunity to evaluate works and projects in their different stages, complexity and nature, but have also had the chance to work by the side of the insured, as proponents and designers of projects. This enables them to take everything into consideration when assessing your risk.

We are a team with a strong dedication to service, and we will do everything within our power to ensure that a construction project is executed successfully.

## What can you expect when working with us?

- A highly experienced underwriting team with a deep understanding of the region.
- Creative, flexible and innovative underwriting risk programs.
- Simple and clear answers to any risk analysis inquiries.
- Claims handling by highly experienced claims specialists.
- The financial stability and strength of **Liberty Mutual Insurance**.

## Coverages for your business.

With **Liberty** you will feel the peace of mind of having a company that dedicates all its effort and team to find an efficient solution to your needs.
